

Individual plan details

An Individual Travel Plan offers the perfect coverage for those who save their travels for one yearly trip. Plans are customized to match the needs of each individual trip by selecting only the travel insurance benefits you need.

- **Custom coverage for every trip**
- **Reduced rates for travel within Canada**
 - **Add an optional deductible**

How it works

- Customize your coverage for an individual trip. For example, if you're taking a couple's getaway, purchase coverage for just the two of you, then worry about coverage for the whole family for the next trip
- Add an optional deductible to reduce your premium cost or include coverage for Accidental Death or Dismemberment
- Travelling within Canada only? Enjoy the same great coverage at reduced rates so you can explore Canada with peace of mind. Apply now and select 'Canada' as your country of destination to see available options
